

"introduced," respectively, by Louis Auchincloss, Gay Wilson Allen, Philip Wagner, Sherman Paul, William Wasserstrom, Merle E. Brown, and Nathan A. Scott, Jr. As a tardy response to a burgeoning cult, *Malcolm Lowry: His Art and Early Life, A Study in Transformation*, by M. C. Bradbrook (Cambridge University Press, 1974, 170 pp., \$6.95), furnishes biography in relationship to ML's canon, a fairly detailed survey of the writings, and the texts of two early stories — all in all, a welcome supplement to the *Selected Letters* (Lippincott, 1965) and written by a sympathetic scholar who has the advantage of knowing the neighborhood in which Lowry grew up and the Cambridge of the 1930s.

12. Vox Populi: For several years Bowling Green University Popular Press has been steadily releasing a spate of lively books and monographs, many of which have been mini-reviewed. Now in good time comes a treatise to tell us what this enterprise is about: *Parameters of Popular Culture*, by Marshall Fishwick (1974, 175 pp., \$7.95 cloth, \$3.00 paper), is one man's earnest effort to focus on the multiple differences within a culture as they "congeal and make a totality." More to the point, the Prologue and subsequent nineteen chapters assess this many-splendored discipline and inquiry that surfaced in the late 1960s to consider the question, "how fares the people's culture . . . in the last quarter of the 20th century?" One such answer is *Vaudeville U.S.A.*, by John E. DiMeglio (1974, 259 pp., \$8.95 cloth, \$3.95 paper), who sees "Vaudeville, vaudevillians, and their audiences [as] America in microcosm," thus cultural phenomena with important implication for teachers of 20th century American literature.
